DEGUSSA – THE SIMPLEST WAY TO INVEST IN PRECIOUS METALS.

For 6'000 years, gold and silver have played an important role in most advanced civilizations as a means of payment and a store of value. To this day, they still have a firm place in modern asset management when it comes to building a balanced portfolio.

Each investment is only as successful as the strategy behind it. What role do you want precious metals to play in your portfolio? And what fits in best with your investment timeline? You can rely on us to guide you through each and every stage – from initial transactions and storage options, to a potential resale. In addition to the standard payment methods, we also accept cryptocurrencies and guarantee best execution and trade settlement.

AN ALTERNATIVE INVESTMENT WITH A PROVEN TRACK RECORD.

Would you like a broadly diversified precious metals investment strategy? Here at Degussa, the possibilities extend beyond investments in gold and silver. Our Degussa bars, redesigned in 2011 and marked with the well-known sun and moon logo, are also now available in platinum. Our extensive range is a reflection of Degussa's commitment to adopting an approach that is both traditional and progressive.

Gold bars.

GOLD INVESTMENT IN ITS CLASSIC FORM.

We only offer clients the highest purity 999.9 fine gold bars from LBMA accredited refineries. Degussa gold bars are manufactured to the strictest quality standards in Switzerland by Valcambi and Argor Heraeus. Our gold bars feature a security number that allows for storage with your bank.

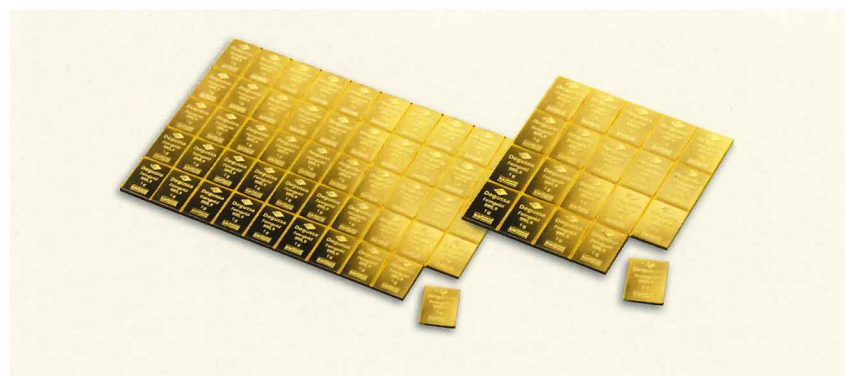

Degussa cast gold bars are ideally suited for larger investments. They are available in 100g, 250g, 500g and 1'000g.

Degussa minted gold bars are available in 1g, 2.5g, 5g, 10g, 20g, 1oz, 50g and 100g units.

Degussa gold combi bars are made up of 20 or 50 individually produced bars weighing 1g a piece that can be split without any loss of material, making them considerably more cost-effective than individual gram bars.

Silver bars.

FROM COINS TO INDUSTRIAL AND INVESTMENT USES.

In addition to its major significance as an investment metal, silver also plays an important role as a raw material for sophisticated technical applications. That is what makes this metal so unique. Our bars with a purity of 999 fineness provide the perfect opportunity to invest in this sought-after industrial metal.

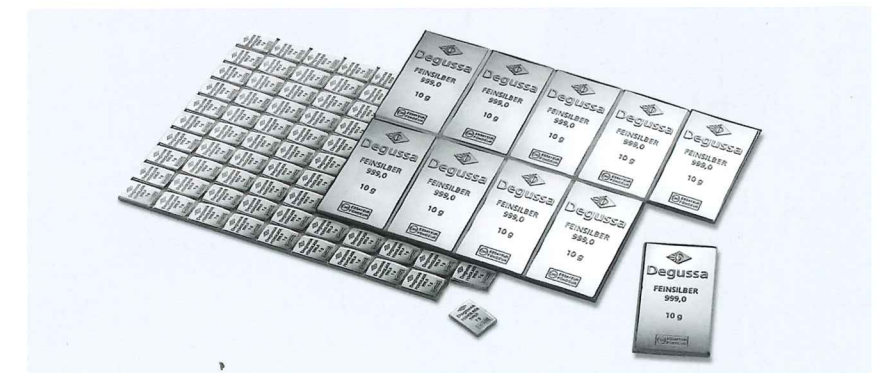

Degussa offers a range of silver bars to meet your needs. Bars are available in minted 1oz and 100g units, and in larger 500g and 1'000g cast units.

For larger investments, we recommend Degussa cast silver bars in 5kg and 15kg units.

Degussa silver combi bars are made up of either 10 individually produced bars weighing 10g a piece or 100 bars weighing 1g a piece. The individual bars can be detached easily without any loss of material to meet any needs for liquidity.

Gold and silver coins.

POPULAR AMONG COLLECTORS AND INVESTORS ALIKE.

When it comes to bullion coins, the focus rests primarily on precious metal content – after all, this is the most important factor in determining the daily market price. At the same time, many investors are also attracted to the impressive motifs. This is why the majority of international mints release updated coin designs every year.

Safe deposit boxes.

SERVICE IS OUR PRIMARY FOCUS.

As part of our special service, we offer safe deposit boxes where you can store your precious metals immediately after purchase in our showrooms in Zurich and Geneva. This allows for secure and discreet storage outside the banking sector. Only you and your authorised representatives will have access. Of course, you can also store cash, documents and other valuables in your safe deposit box. A standard insurance of CHF 30'000.- is included in the rental fees and can be increased on request. You can also choose the size of your safe deposit box and enjoy convenient and unlimited access during our opening hours.

SECURITY

Our state-of-the-art safe deposit boxes in Zurich and Geneva are among the most secure in Switzerland. They are electronically monitored around the clock and are directly connected to the security centre. Additional protection is provided by other security measures and protection officers on site.

INSURED

The rental price of a safe deposit box includes regular basic insurance, which covers amounts up to CHF 30'000.-. For an insurance premium of 0.15 % (CHF 150.- per CHF 100'000.- insured amount), the insurance cover can be increased at any time to the amount you desire.

DISCRETION

We guarantee that only one customer will be present in the safe deposit box area at any given time. For your comfort, we have several discreet viewing rooms at our disposal. You will never be asked to disclose the contents of your safe deposit box. All customer information is handled confidentially in compliance with data protection.

ACCESSIBLE

Disabled access to our premises is guaranteed at both of our locations. Our showrooms are located in the city centres of Zurich and Geneva and can be reached quickly and conveniently using public transport. Public parking options are also available close by if you prefer to come by car.

Tax-free warehouse.

STORE LARGE QUANTITIES OF PRECIOUS METALS TAX-FREE.

When it comes to storing large quantities of precious metals with a value of CHF 250'000.- and above, we recommend using one of our customs warehouses. In this case, the tax payable is only incurred when you have the metal dispatched to you physically. We would be happy to take into consideration your specific needs with a view to arranging safekeeping in Switzerland or overseas.

Storage locations are available at Degussa partner companies on all continents. The storage is arranged as individual safekeeping, thus always guaranteeing your ownership status. Metal holdings are independently audited on a regular basis and you will receive a certified account statement of your metal holding on an annual basis.

Numismatics.

WE HAVE EPOCHS WAITING FOR NEW OWNERS.

Coins tell stories of great cultures; they bring history to life and their value is everlasting. Would you like to place a lovingly assembled collection or individual pieces in the best hands and benefit from the comprehensive expertise of a renowned name in the precious metals sector? Whether you want to collect or sell historical coins, our numismatics experts will advise you personally. Collections usually develop over several years and are often passed on from one generation to another. With all our experience we help you find rare collector coins – or trustworthy buyers who will pay the highest prices for your individual pieces and collections.

We can also place particularly rare items in major auctions around the world. Are you interested in numismatics as an investment? Our team of experts can also advise you on this.

CHANGE YOUR OLD BARS AND SCRAP GOLD INTO CASH.

Precious metals never lose their value, they simply change their form. You can convert jewellery, scrap gold and silverware that are no longer in use back into cash at any time in a straightforward and discreet process at our showrooms in Zurich and Geneva. Here you can sell to experts who know their way around precious metal markets better than anyone else.

Gold and silver have their own special charm; but it is the precious metal content that determines the value. That is why we always buy at the latest precious metal prices. Older gold and silver bars and coins are in safe hands with us too; we will exchange these for cash there and then. Numerous victories by the Degussa Group in independent comparison tests demonstrate our fair pricing and professional approach.

Degussa collection.

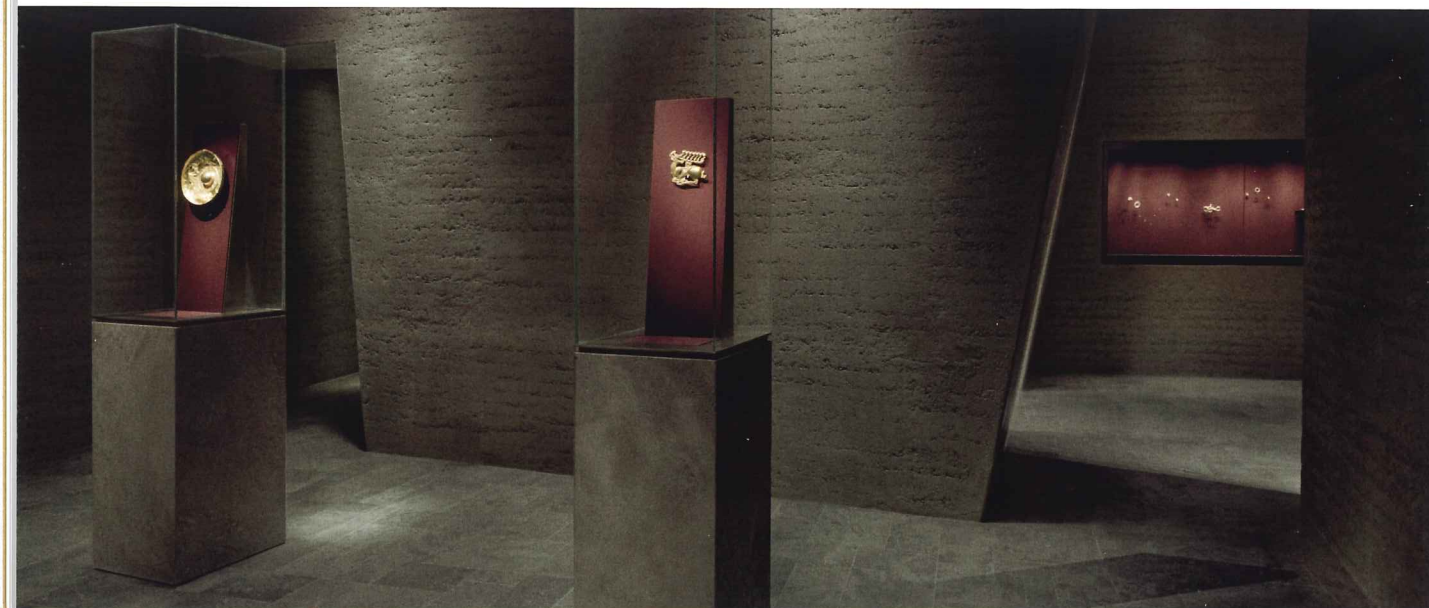

EXPERIENCE HISTORICAL TREASURES.

The Degussa Collection comprises over 1'300 exhibits from all epochs. The oldest exhibits in the Degussa Collection – three golden amulets from the Black Sea region – date from 4000 BC. Other artefacts date from the Bronze Age, the Roman Empire and the Middle Ages. Among the highlights of the collection are several gold figures from the period between the 6th century BC and the 4th century AD, such as a Scythian stag appliqué and the only surviving golden portrait bust of the Roman Emperor Licinius. The highlights from the early modern era and the treasures of sunken ships include the Spanish galleon Atocha, which sank in a hurricane off the coast of Florida in 1622.

The unique and world-famous collection includes the ingots of the Rothschild Collection. Its 1'084 specimens by 145 manufacturers from 35 countries is considered the most extensive and important collection of contemporary ingots. The Rothschild Collection was founded in 1993 by the legendary commercial bank N.M. Rothschild & Sons and remained in their possession until it was acquired by Degussa in 2014. Part of the collection is exhibited in the Frankfurt Goldkammer and is open to the public.
